The screenshot shows the 'Configuration' tab in the Hikvision interface. The left sidebar lists various settings categories: Local, System, Network, Basic Settings, Advanced, Video/Audio, Video Intercom, Access Control, Image, Smart, and Notice Publication. The 'Advanced' category is selected. The main panel displays the 'Platform Access' settings for 'Wi-Fi'. The 'Platform Access Mode' is set to 'Ehome'. The 'Enable' checkbox is checked. The 'Protocol Version' is set to 'v5.0'. The 'Server Address' is '0.0.0.0', the 'Port' is '0', the 'Device ID' is empty, and the 'EHome Key' is empty. The 'Status' is set to 'Offline'. A red 'Save' button is at the bottom right.

- Imports background pictures, and the device will play pictures during standby status.

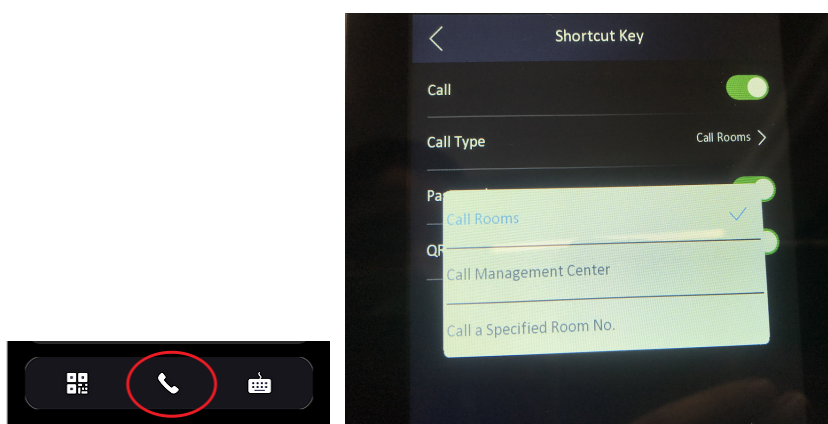

The screenshot shows the 'Notice Publication' settings in the Hikvision interface. The left sidebar is the same as the previous screenshot, with 'Notice Publication' selected. The main panel shows the 'Notice Publication' settings. The 'Sleep' checkbox is checked. The 'Sleep after' time is set to '60' seconds. The 'Customize Screen Saver' checkbox is unchecked. The 'Screen Saver Picture' section has a note: 'Only JPEG format is allowed. Up to 8 pictures can be added.' Below this is a large empty box with a '+' icon. An 'Upload' button is below the box. The 'Slide Show Interval' is set to '1' second. A red 'Save' button is at the bottom right.

- Self-defined screen display info (user ID, name, and face picture) for authentication result.
